

Virtual Prayer Wall

Go to www.padlet.com

- Create an account
- Once created, click create padlet and then select the wall format
- Create a title and write a description to say what it is for
- Then choose your advance setting by scrolling down after you have written the description
- You might want to change the wallpaper or add an icon
- Make sure you read all the options and consider adding the profanity filter
- To add a post, click the plus sign, type what you want to say and then click the background to submit the post.
- To create a QR code, click the share button in the top righthand corner and click create a QR code. The QR code then will pop up, right click this to save it to your computer. You can also copy and paste the link to any social media pages. Here is an example of the QR code for Judy Harris' Prayer Wall:

If you have an Apple phone, go to camera and show the hover over the QR code. A pop down tab should appear with a link to Safari, which you can click on.

If you have an android device, you can either use google lens or you will need to get a QR reader but these are easily accessible by going to the play store or equivalent and typing in QR code app and then download it. Once installed, open the app and scan the code.

Example poster:

Scan this code and add your prayer request to our virtual prayer wall.

The church will be notified once it has been added and we can begin to pray for you.

Insert your own QR
code here and
place this poster in
your window.
